TECHNICAL NOTE

Bureau of Land Management U.S. DEPARTMENT OF THE INTERIOR

Subject: Clays, General Publications

References:

1. Klinefelter and Hamlin, Syllabus of Clay Testing, 1957, U. S. Bureau of Mines Bulletin 565, GPO. An excellent summary of clay testing procedures and applications.
2. Pask and Turner, Editors, Clays and Clay Technology, 1955, California Division of Mines. Proceedings of the First National Conference on Clays and Clay Technology, 1952. Held annually from 1952 - 1966 (and possibly after 1966) and published by various sources under the title Clays and Clay Minerals:

2-5 National Academy of Science - Natural Resource Council, Washington, D. C.

6-15 Pergamon Press, New York.
3. Nutting, Absorbent Clays, Their Distribution, Properties, Production and Uses, USGS Bulletin 928-C, 1943.
4. Grim, Ralph E., 1962, Applied Clay Mineralogy, McGraw-Hill, New York. A good reference on useful properties of clays and their utilization.
5. Grim, Ralph E., 1968, Clay Mineralogy, 2nd Edition, McGraw-Hill, New York. Oriented more to mineralogy than to the applications and uses of clays.
6. Cooper, James D., 1970, The Demand Picture for Higher Quality Clays, Society of Mining Engineers Preprint 70-H-100, AIME, New York. Contains projections for the use of Kaolin, bentonite, fuller's earth and ball clay.
7. See references listed on technical note on Industrial (Non-metallic) Rocks and Minerals.

Please send any additional references on this subject or other minerals subjects to DSC (D-310). If the complete article or publication is needed, DSC (D-310) will attempt to obtain a copy or a loan for you.
